Co-funded by the
Erasmus+ Programme
of the European Union

BULLETIN No. 4

FINAL CONFERENCE IN ULCINJ 2023

On December 5th and 6th 2023 we held a final meeting and the closing conference, in which we presented the achieved results, the work methodology, the community link and recommendations for the continuity of cooperation.

The summary of the project achievements was published by the Kledisa Çela colleague from the Institute for Environmental and Territorial Management Institute (Tirana). The partners from Austria, Slovenia, Bosnia and Herzegovina and Albania also discussed the specific experiences in their countries. As part of the Spatial Justice - Erasmus + project today we held the closing conference, in which we presented the achieved results, the work methodology, the community link and recommendations for the continuity of cooperation.

We had an excellent opportunity to meet the local youth and youth workers and hear their experiences and issues related to the spatial justice. It will be excellent input for our further work and commitment in projects related to youth empowerment and engagement.

“Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or Erasmus+. Neither the European Union nor the granting authority can be held responsible for them.”

Spatial Justice

Struggling for greater (spatial) justice opens up a wider net to encompass many different forms of activism, encouraging them to come together in larger and more diverse kinds of coalitions.

– Edward Soja
